

Estimated FAF Flow for Trucks Going To, From, and Within New Mexico on National Highway System 2017

Note: Major flows include domestic and international freight moving by truck on highway segments with more than twenty-five FAF trucks per day and between places typically more than fifty miles apart.

Source: U.S. Department of Transportation, Federal Highway Administration, Office of Freight Management and Operations, Freight Analysis Framework (FAF), version 5.1. Flows include 42 different commodities represented in FAF.

*State to State flows represent annual KTons of freight transported by trucks within New Mexico, and between New Mexico and other States. Flow does not include imports and exports that use New Mexico as the gateway port and go out of the state.
