2021	\$1,905,000	Oklahoma Road User Charge Pilot Program: ODOT will evaluate new strategies to leverage an existing tolling back office, and partner with Tribal nations on policy development and examine methods to collect road user charge revenue from out-of-state drivers.

**Program Approach and Design:** This project will develop and conduct a voluntary pilot program involving a small number of participants to aid in the development and future deployment of a RUC Program that addresses potential challenges and opportunities that might be unique to Oklahoma. The project will evaluate and test strategies that will ensure that the RUC Program developed for Oklahoma is fair, equitable, and sustainable.
